Contents

1 Example document

Lorem ipsum dolor sit amet, consectetur adipiscing elit. Duis vel est viverra lectus mattis scelerisque sed in velit. Phasellus risus eros, accumsan ac lectus ut, convallis convallis libero.

1.1 Writing math

This is another paragraph with an inline math formula $2 + 2 = 4$. We can also use display math:

$$2 + 2 = 4$$

1.2 Using citations

This is a citation [1].

1.3 Images

Figure 1: Description

We can add images and then reference them as 1

1.4 Code

This is a code block:

```
const foo = 2;
const bar = 2;
const foobar = foo + bar;
console.log(foobar);
```

1.5 Tables

Here's a table:

Table 1: Example table

Left aligned	Center aligned	Right aligned
Apple	1234.56	$12
Pear	234.56	$2
Orange	3.09	$3

1.6 Using raw Latex

For things that can't be done with Markdown, we can just use raw Latex commands such as `\begin{align}`:

$$2 + 2 = 4 \tag{1}$$
$$4 + 4 = 8 \tag{2}$$
